I'm Sending this correspondence to many Attorneys and also Emailing multiple Attorneys online I ask that if your services are available to me that you please contact me as soon as possible so you can review the complaint I have structure already and let me know if this is a case you can take on. This complaint can be always modified to add your expertise but all areas have basically been covered with relevant to the facts and law applied in connection with the claims I am presenting to the court. But I'm sure your expertise can offer additional aspects of this case which I respectfully ask for your service.
